OUR SERVICES

ELECTRONIC REPAIRS

We Oasis Automation are Trusted name in Repairing service of Industrial Automation Products. Team of highly skilled and experienced technicians of Oasis Automation can optimize and analyze the repair requirement of the product efficiently. We follow our unique procedure for repairing of the products to provide fast track and quality service.

AMC & SERVICE CONTRACTS

For Service Support and AMC we follow standard procedure which includes properly planned assessment of systems/equipment by our experienced professionals. The clients with AMC & Service Support are happy enough as they get satisfactory result with smooth and efficient functioning of systems. This will results in minimizing risk of machine failure thus reducing downtime and avoid production loss.

PROJECTS & REDEVELOPMENT

With 14 years of experience in the industry, OASIS AUTOMATION has ability to take up turnkey projects such as designing, manufacturing, supply and commissioning of process lines/ machines/ panels. We can execute large and small industrial automation and control projects. From concept to production, we are committed to our customers for developing, building and maintaining quality automation systems that can help you to achieve your goals.
